1. The following is an examiner's statement of reasons for allowance: Applicant's argument and amendments have been found to be persuasive and to overcome the cited prior art. None of the prior art teaches or suggests the force transmission member as claimed wherein the force transmission member is movable relative to the carrier in a plane parallel to the brake disc and also the force transmission member is guided by a guide that is rigidly attached to the carrier at a run-out side of the disc brake.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. It has been determined that claim 1 is generic. Hence, claims 3, 9-11 and 13 have been rejoined.

3. Claims 1 and 3-16 are allowed.
